

Drone Photos and Videos

Edlio works with DroneBase, the largest drone pilot network in the US, to provide overhead imagery for schools and districts across the country. Show off your campus with professional aerial photographs and videos shot by a highly qualified drone operator and guided by the expertise of Edlio's team. It's a quick, easy way to add beautiful imagery to your website that brings your school to life.

WHAT'S INCLUDED:

- 15 images, 15 video clips, and a 60-second video set to music with your branding
- Drone piloted by an FAA approved, insured drone operator who has passed a background check and been trained by DroneBase
- Quick turnaround, with photos and videos delivered in as little as one week
- Edlio management of your drone project
